

**Regenerating the Hayward DE Filter (When the pressure is up and bumping doesn't help)**

- 1) **TURN OFF PUMP**
- 2) **BUMP FILTER** - Down slow and up swiftly, about (7) seven times
- 3) **DRAIN FILTER** - Open lower (gate) valve, open top (air) valve, allow it to gravity drain.
- 4) **FLUSH FILTER** - Turn the pump ON, close the air valve, wait 30 seconds, close the gate valve
- 5) **RECIRCULATE** - Run pump to eliminate air from the system
- 6) Repeat steps 1 through 5
- 7) Add proper amount of **DE - EC 75: 7 Orange cups | EC 65: 6 Orange cups | EC 40: 4 Orange cups**
